HARD SKILLS

C   Python   git
GNS3   Linux   Bash
Markdown   TCP/IP
Cisco   VLAN   LACP
ARP   xSTP   RIP
OSPF

LANGUAGES

Russian: Native

English: A2+

ABOUT ME

During my studies at MIPT I developed an interest networks. In my second year of study, I took an additional course on the basics of telecommunication technologies organized by the IITP RAS. This semester I was a student of the Klimanov M.M. computer networks course. I want to gain experience working with real networks that are located in different parts of the world.

EDUCATION

Moscow Institute Physics and Technology | DREC

📅 2022 – 2026   📍 Dolgoprudny, Russia

- GPA: 8.7/10

Fundamentals of telecommunication technologies | The Institute for Information Transmission Problems

📅 2024   📍 MIPT

- Lecturer: A. Kureev

Advanced machine learning methods | Digital Department

📅 2024   📍 MIPT

- About course: solving analytical problems using python

PROJECTS

Hamming-Code-Implementation | ⌨

📅 March 2024 – May 2024

- A program for single-bit error correcting

Random Number Generator | ⌨

📅 September 2023 – April 2024

- Random number generation based on bipolar transistor noise. The results of the work were presented in a scientific journal
